Run

```
1 def insert_song(playlist, new_song):
2     playlist = playlist.copy()
3     playlist.append(new_song)
4
5     i = len(playlist) - 2
6
7     while i >= 0 and playlist[i][1] > new_song[1]:
8         playlist[i + 1] = playlist[i]
9         i -= 1
10
11     playlist[i + 1] = new_song
12
13     return playlist
14
15
16 if __name__ == "__main__":
17     playlist = [
18         ("Intro", 120),
19         ("Chill Beat", 210),
20         ("Long Jam", 340)
21     ]
22
```

Output

All test cases passed!
